

To whom it may concern,

Last fall we met with a group that is interested in raising funds to build an aquatic facility here in the Mount Washington Valley. As Physical Education teachers we would be very happy to see such a facility. The opportunities that would arise for our students if an aquatic facility was available would be endless. Our hope would be to work out a solution that would allow the Kennett High School Physical Education students to use this facility under a trained instructor. This would provide a class that our students could take and get a portion of their physical education credit. Other opportunities that could arise with the availability of an aquatic facility would be the ability to have a swimming and diving team here at Kennett High School. We as the Physical Education department are very excited about the advantages that this facility would provide to our students.

Thank you,

Kerry Brady
